

## 1. AQUALAST

Sign me, sign me under  
your heart  
I promise you we'll never be apart

Sue me, sue me if I am wrong  
We'll spend the next life in my lavender

Take me, take me out of this hole  
I'm seeing your love lightening my bulb  
I see how life has nothing to love  
When you're away with problems to solve

You can lay me down  
In fields of lavender  
The air is light and I can only surrender  
Your hair of fire are floating and it's time  
For tears and crying to stop forever

Why me ?

Kiss me, kiss me please never stop  
I'm slowly, slowly touching the clouds

My horses have gone wild in the fog  
Your whispers shake the earth and my bones

Help me, help me be a new man  
I'm weak and smoke runs into my veins

Your power can't be held with two hands  
A woman that I won't meet again

You can lay me down  
In fields of lavender  
The air is light and I can only surrender  
Your hair of fire are floating and it's time  
For tears and crying to stop forever

Why me ?

## 2. REMEMBER

Slowly I, slowly I  
I drove to your door at night  
I want to take you love for a little ride  
A drive to the shore  
Maybe you'll see what I see  
Softly I, softly I  
I knocked on your door, no light  
We could take my car for the countryside  
A slide through the fog  
Oh but you never showed up dear, no

I, I remember the time  
I, I remember the time

Oh silly I, silly I  
I melted down and cried, alone  
We could've settled down on the seaside shore  
And carry the time  
Only you never showed up dear  
Oh maybe I'm a little boy  
Who needs your help at night  
Honey I could be your human to you  
Giving you signs of joy  
Oh but you never cared for me no

I, I remember the time  
I, I remember the time

Oh dear don't fake me  
Don't hate me  
I'm out there, I'm out on my own at night  
Oh dear don't brake me  
Don't hate me  
I'm out there, I'm out on my own at night

### 3. TONIGHT

Hold me tonight  
Please turn off the light  
Oh I feel the fright  
Oh I'm gonna die

Tonight

Dear hold my hand  
I was your man  
I need a friend  
Now I'm nearly dead

Tonight  
Tonight

Summer days are far away  
Sunny days are gone

### 4. QUEEN OF THE FOOLS

Funny how it sounds much better without you  
See the noise is gone I'm playing without you

I guess your place for sure was behind a desk  
Dressing dolls for money, here's your success

Thinking that the world could not turn without you  
Constipated minds won't make it without you

They should pay me twice to be in your shoes  
Bankers, lawyers, honey they won't get the blues

Thinking that you rise ? You're on the wrong ladder  
Sure if it's money-wise, you're queen of the fools

It gave you a dirty mind, ambitious and cruel  
I think you crossed the line, more headaches and jewels

With your tiny heart, you spit in the soup  
Sure, you could nail a prophet  
And then stick to your rules

What's the matter with you ? You can't confess ?  
Too much sins to carry, one more or less !

You are such a sad little girl  
You are such a sad little girl

## 5. WEDDING BELLS

My knees are in pain  
I'm standing out there in the fog  
My heart is in flame  
Just a few feet away from your door  
I'm guessing your voice  
The weight of your sigh fills the air

Feel I've been gone for forty years  
It's been only four but full of tears  
I covered miles to cease the pain  
I held your picture in the rain  
Expecting you to be the same  
Poems and letters never came

I heard our wedding bells at dawn  
Peaked through the window, are you there ?  
All I could see was my old chair  
I whipped the steam, am I insane ?  
I saw a child beside the fire  
His smile was yours, Oh would I dare  
Presume the child was mine as well ?  
Presume the child was mine as well ?

I hardly believed this was true  
As I had conceived me and you  
The ruins of my dream out of the blue  
From deep thousand seas to heaven blue

The name on doorbell had been changed  
A man had come to ruin the plan  
My expectations are in vain  
I stand alone to my old door  
If I had known during the war  
I'd still be dying in those plains

Now those wedding bells are gone

If I could use a magic spell  
I'd be the man beside the child  
Resting my soul for heaven sake  
I fought for years in heavy shit  
Starving to death, losing my mates  
Waiting to see you face to face  
Oh I want to see you face to face  
Oh... Oh I want to see you face to face

## 6. LOU

Baby Lou I look at you  
Things you say are often true  
You seemed embarrassed, was I too ?  
True romance is sometimes blue

But it's alright, yeah it's alright  
I'm fine, when I'm with you  
Yes it's alright, Hala it's alright  
Let time make what it makes

Sure obstacles stand on our way  
Hala soon we'll be ok  
Don't be frightened of a train so fast  
I've got the wheel I'll make it last

See it's alright, yes it's alright  
We're fine, we're on the track  
Now it's alright, Hal' it's alright  
We'll ride, to a better land, to a better land  
Yes to a better land, to a better land

So baby Lou now don't be no fool  
Our heavy cross can be a tool  
Once the clocks decide to make their turn  
Then the evil side shall be head turned

See it's alright, oh baby it's alright  
We're fine, we're on the track  
Oh Hal' it's alright, love it's alright  
We'll ride, to a better land, yes to a better land

## 7. SILVER

Acid rain and hurricanes  
Don't make me want to stay  
I'm scared, I'm scared my love

Melting bergs kill polar bears  
The axe is on our head  
Don't fake, don't fake no more

Could we ever know, why ?  
Could it ever change, my ?

Politicians full of lies  
The aim for all's the same  
Don't fake, don't fake no more

Wealthy priests need love affairs  
The faith has gone insane  
Don't fake, oh don't fake please no more

Could we ever know, why ?  
Could it ever change, why ?

City lights and petrol fair  
The countdown nearly dead  
Don't fake, don't fake no more

## 8. CHAMPAGNE

I'm so sorry for what you're going through  
But I've got my life and it's all new it's true  
There's nothing here for you  
Now my days are loaded I've got things to do  
Between money and fame there's no more room for you  
The feeling's gone she threw

You You You

What can I propose ?  
Well nothing but my heart and bones  
And all this on the phone  
I guess the hard times boy you'll be doing them alone!

Refusing shelter from the storm  
She closed the door  
The page is torn in two  
The plans and schemes are too  
She says we need some time but we can still be friends  
And when all'll be great we'll drink champagne in coupe  
Oh dear I love your suit !

You You You

Mirrors and disguise  
Brainwashed memories no surprise !  
Afraid to catch my eye  
With many postponed tickets I'm pushed away goodbye

Well so long Liz or Baby Lou  
May your friends and mommy never do the same to you  
Well they did but now they grew  
You said you wiped the stain on the Union Jack  
Well the deck is clear no looking back  
Oh Lou...the stain was art in you !

You You You

## 9. CARRY ON

Since you're gone I have more fears  
Since you're gone I have more tears  
Said I, since you had me on your back  
Leaving path along the track

For a day and for a night  
I've been waiting on my own  
Girl I, since the same old situation grows

Sunny days are far away  
See my skull's about to break  
You know, I can never see again  
Hear my voice it's still the same

Now that you flew far away  
Girl I feel you here with me today  
You know, if I ever lost my touch  
And if I ever made you cry

I believe in you  
See that's what I do  
I can see you too, love  
Anyhow I feel like dust

Poured your rain on sunny songs  
Honey please don't sing along  
If you ever lose your faith  
Girl, you never wore a crown

Anyhow the winter's gone  
Please don't call I'm on my own

If you ever need a hand  
Kill the dream and carry on

Now the days are long  
Love I had to carry you along  
You were never strong  
I had to carry you along

## 10. LATE NIGHT LOVE

Watch the end of the day go down  
The beautiful sun is round  
The light just spreads in your eyes

Watch above the hill it's dawn  
There's nothing I did wrong  
I held you tight in the fright

Haven't you seen this coming boy ?  
Hadn't you heard this treason sound ?

Watch the end of the day is gone  
Leaving you on your own  
You're pushed in the sea so strong

Why am I alone to drown ?  
You're watching me love go down  
The fear is straight in your eyes

Why beneath the dark moon sky  
Water surrounds me now ?  
You pushed my head for a drown !  
So drown, drown

Was the moon so high ?  
Was the moon so high before ?  
Is the moon so high ?  
Was the moon so high love ?

Cries, melting with depth I tried  
Swimming across the sky  
I found no sign of your love

My isn't the sun so bright  
Replacing the city lights  
Girl I wish you could seek for me now

Was I a threat to starvation ?  
Was I a break to your nation ?

Was the moon so high ?  
Was the moon so high before ?  
Was the moon so high ?  
Was the moon so high love ?

## 11. FULL OF GRACE

-

Symbolize the fame  
Where there's sorrow, there is pain  
For one moment not so long ago  
In a land where it's not the same  
I'm a singer in the dark  
I play my tunes for the mob  
Yes I'm a lover and it's all so hard  
'Cause I'm a singer in the dark  
Little doll don't play this game  
You've lost your pride who's to blame ?  
You've got no courage go wash your face  
Tell me woman so full of grace !  
I'm a singer in the dark  
I play my tunes for the mob  
Yes I'm a lover and it's all so hard  
'Cause I'm a singer in the dark  
For some dollars you've spread the rain  
Acid drops straight from your veins  
Keep your distance with your fucking rain  
I'm no longer the one to blame  
I'm a singer in the dark  
I play my tunes for the mob  
Yes I'm a lover and it's all so hard  
'Cause I'm a singer in the dark

All songs written, composed  
and performed by Timothée Regnier  
Published by Wagram Publishing

---

Produced by Samy Osta  
Recorded by Samy Osta  
and Guillaume Jaoul at Microbe Studios,  
except 'Remember' recorded by Samy Osta  
assisted by Jean Baptiste Deucher  
All tracks were recorded on a MCI JH24  
Mixed by Samy Osta at Chicken Cottage Studio  
except 'Champa gne' mixed at Studio ICP, Brussels  
Mastered by Chab at Translab, Paris

A&R and executive producer : Benoît Chapdelaine  
Publishing A&R : Victor Milchberg
